Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of claims 9-18 in the reply filed on 3/12/2008 is acknowledged. The restriction herein is made final.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 15-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 15 recites the limitation "the first and second threshold values" in lines 1-2. There is insufficient antecedent basis for the limitation of "second threshold values" in the claim, since claim 15 depends on claim 9. There would be sufficient antecedent basis if claim 15 were dependent on claim 11.
5. Claim 16 recites the limitation "the predetermined percentage value" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim, since claim 16 depends on claim 9. There would be sufficient antecedent basis if claim 16 were dependent on claim 10.
6. Claim 17 recites the limitation "the (N-1)th error block" in line 3. There is insufficient antecedent basis for this limitation in the claim.

7. Claim 18 recites the limitation "the blocks" in line 2, twice. It is unclear to what specific blocks that applicant is referring to: the first section of blocks, all blocks, etc.

8. Claim 18 recites the limitation "the left." In line 3. There is insufficient antecedent basis for this limitation in the claim.

9. Claim 18 recites the limitation "the same row." In line 3. There is insufficient antecedent basis for this limitation in the claim.

Allowable Subject Matter

10. Claim 9 is allowed. All depending claims are allowable if the rejections made above are overcome with appropriate amendments.

11. Claim 9 contains allowable subject matter. Prior art does not disclose that an error block is corrected in a panning application by calculating an average of the motion vectors in all the previous blocks with respect to the error block in the current frame, identifying effective motion vectors by counting blocks in the claimed range, and then calculating another motion vector that is equal to the average of the effective motion vectors, then setting the error block to be equal to the another motion vector.

Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art made of record is provided in the attached PTO-892.
